Decoding the Core Theme -

GRASSROOTS TO GLOBAL : WOMEN'S ECO SYSTEM

1

Connecting the Spectrum:

The theme focuses on bridging the massive divide between rural, small-scale female change-makers (the grassroots) and high-level international policy-making panels (the global scale)

2

It aims to establish a self-sustaining environment or ecosystem where young entrepreneurs and community builders receive structural support, policy visibility, and cross-border networking tools.

3

Empowerment Dialogue:

The core goal is to elevate localized narratives into mainstream international legal, economic, and governance frameworks to advocate gender balance across all areas.
